

19:15:00 From Heather Flint Chatto : Housing Regulatory Relief Project:
<https://www.portland.gov/bps/planning/housing-regulatory-relief/about>

19:31:42 From Heather Flint Chatto : Found the Housing Regulatory Relief
next hearing date...Not posted yet but this is going to City Council on Jan 10th and
one of the things the Planning Commission has proposed rolling back community
notification requirements including the current neighborhood meeting requirement as
part of notification. This is an issue many community members including RNA
advocated FOR. It costs, very little and Please keep an eye out for this. You can
read more community input here:
<https://www.portlandmaps.com/bps/testimony/#proposal=hr>

19:53:25 From loni gray : So what can we do at this juncture, this late in
the game?

19:54:00 From loni gray : Will the City listen?

19:54:08 From Sam Cole : Right. What's the point, here?

19:54:30 From Heather Flint Chatto : Object to the Findings of No
Significant Impact (FONSI) on the Environmental Assessment & ask for a Supplemental
Assessment

19:55:16 From loni gray : They do not have to at thi point right? How can
we convince the City to ask this of the project?

19:55:59 From loni gray : Not saying weshouldn't ask, but want to
understand what we can acheive.

19:56:04 From Heather Flint Chatto : That is the recommendation and ask of
RNA. This project is a significant impact and there is no adequate planning and
mitigation, nor alternatives.

20:02:08 From Heather Flint Chatto : anna.shook@portlandoregon.gov

20:03:36 From loni gray : Love the idea of suggesting incremental
construction.

20:04:22 From loni gray : It's humane, and reasonable

20:04:52 From simon kipersztok : I have the same questions as Loni.
Understanding that this is an overly expensive project, poorly planned, undesired by
the future residents and likely adversely affecting the surrounding the neighborhood
surrounding it, what is the realistic probability that the project will be stopped
to comply with the points raised by Claude?

20:13:00 From simon kipersztok : Good points. Loni!

20:16:53 From simon kipersztok : Has the media been approached with this
issue and the gaslighting by the city?

20:18:12 From loni gray : Ca you send us the letters and Ana shooks email
after the meeting so we can send individual letters. Another RNAwhens the deadline
for anna to act?eaf ears.

20:19:12 From Heather Flint Chatto : Deadline for response to the
Environmental Assessment is December 18th

20:20:19 From loni gray : Sorry. My comment got garbled. Since all RNA well
crafted letters have fallen on deaf ears, send us the letters and let us write
individually. When's the deadline?

20:21:57 From loni gray : These bullets won't be remembered after the
screen goes away. Send them to us by email sowe can use them to write letters.

20:22:05 From Sam Cole : Reacted to "These bullets won't ..." with 

20:22:10 From Kate C : Loni, can you take a screenshot?

20:22:40 From loni gray : Bring it up and I'll do that.

20:26:08 From loni gray : I'd rather see the letter than bullet point

20:29:01 From Sam Cole : sam.cole@gmail.com
20:29:19 From loni gray : connected@sonic.net
20:29:32 From loni gray : I want a copy as well.
20:33:02 From simon kipersztok : I have to leave. Good night everyone and
Happy Holidays!
20:36:26 From loni gray : Sorry I just miss so much language in the hall bc
of echo. Goodnight....be safe, be sassy all,
20:39:36 From Heather Flint Chatto : Gotta run - thanks everyone!
20:40:16 From Kate C : Kate: k.connolly87@gmail.com
